

FOR IMMEDIATE RELEASE

WebWorks.com Announces RoundUp 2008 Conference

Leading Publishing Platform Software Developer Announces Continuation of Popular User Conference

AUSTIN, Texas — March 10, 2008 — WebWorks.com, a brand of Quadralay Corporation, the leading developer of publishing platform solutions for single-source delivery of online content, today announced its plans for RoundUp 2008, the second annual WebWorks conference, to be held this fall in Austin, Texas.

Building on the success of last year's conference and the enthusiastic reception it received from members of the fast-growing WebWorks user community, RoundUp 2008 has been expanded with more content and optional training sessions. The theme of RoundUp 2008, "Agile Enterprise Publishing," reflects both the adaptability and power of the WebWorks ePublisher platform.

RoundUp 2008 will run from Tuesday, September 30, to Thursday, October 1, at the InterContinental Stephen F. Austin hotel in downtown Austin, Texas. The conference will feature industry-leading keynote speakers, user case studies, and sessions on industry trends, as well as all the latest news and developments in the WebWorks product line. Additionally, a welcome reception will be held at the hotel Tuesday evening.

The WebWorks team is also offering optional training sessions to be held on Monday, September 29, for attendees who wish to make the most of their time in Austin and increase their product knowledge even further.

For more information visit the conference website at www.webworksroundup.com

About WebWorks.com

WebWorks.com, a brand of Quadralay Corporation, is the leading provider of comprehensive online publishing and help system delivery solutions. Its products and services constitute the definitive single source for all its customers' ePublishing needs. WebWorks.com specializes in content conversion software that outputs Web, online help, and technical publication formats. The ePublisher Platform can automate the conversion of source documents in popular authoring formats such as DITA-XML, FrameMaker, or Word and convert them to multiple end-user formats such as WebWorks Help, HTML, CHM, and PDF. ePublisher's conversion system is based on XSL so that output formats can be customized or even developed from scratch if needed. Quadralay

Corporation, based in Austin, Texas, was founded in 1992 as part of the University of Texas Technology Incubator program. Quadralay currently has thousands of customers in over thirty countries worldwide.
