

FOR IMMEDIATE RELEASE

## Vasont Systems Joins Webworks.Com Partner Program

---

### Industry Leaders Partner to Provide an Automated Solution to Complex Publishing Challenges

**AUSTIN, Texas — October 31, 2007** — WebWorks.com, a brand of Quadralay Corporation, the leading developer of publishing platform solutions for single-source delivery of online content, today announced that Vasont Systems, a leading provider of content management software and data services, joined its Partner Program. Together, WebWorks.com and Vasont Systems offer their clients an unparalleled depth of expertise to solve complex corporate publishing challenges.

The strategic alliance between WebWorks.com and Vasont Systems will include joint projects, marketing and sales efforts. Additionally, Vasont Systems and WebWorks.com will work together with customers to implement environments where Vasont's content management products are closely integrated with the WebWorks ePublisher Platform to support single-source publishing of content to multiple online delivery formats.

The joint Vasont Systems & WebWorks.com team has already developed and delivered a solution for a leading designer and manufacturer of communications, consumer and storage semiconductors. The integrated solution automates the publishing process from content stored in the Vasont content management system and is totally transparent to the end user, who is notified via e-mail alerts when the content is published and archived.

“Our goal is to make an organization’s publishing process as easy as possible,” said Suzanne Mescan, Vice President of Marketing for Vasont Systems. “Our partnership with WebWorks allows us to offer a solution for creating multiple online formats behind the scenes that expedites the publishing process for users and delivers their most current information to their customers quickly.”

“Vasont has built an excellent reputation in providing solid ROI and benefits to companies who need to manage their structured content,” said Tony McDow, Quadralay’s CEO. “We strongly believe that by partnering with Vasont and developing a close integration of our products we will be able to offer the best implementations to joint customers wishing to solve complex online publishing problems.”

## **About WebWorks.com**

WebWorks.com, a brand of Quadralay Corporation, is the leading provider of comprehensive online publishing and help system delivery solutions. Its products and services constitute the definitive single source for all its customers' ePublishing needs. WebWorks.com specializes in content conversion software that outputs Web, online help, and technical publication formats. The ePublisher Platform can automate the conversion of source documents in popular authoring formats such as DITA-XML, FrameMaker, or Word and convert them to multiple end-user formats such as WebWorks Help, HTML, CHM, and PDF. ePublisher's conversion system is based on XSL so that output formats can be customized or even developed from scratch if needed.

## **About Vasont**

Headquartered in Pennsylvania, Vasont Systems is a leading provider of content management software and data services backed by more than 55 years of experience in the information management and publishing industry. Its flagship Vasont® content management system enables organizations of all sizes to create, manage, and store their multilingual content once for multi-channel delivery. Fortune 1000 companies and organizations from a variety of industries, including manufacturing, technology, publishing, and healthcare, use Vasont to manage and produce multilingual technical documentation, product manuals, and reference materials.
